FORGINGS

impol FinAl

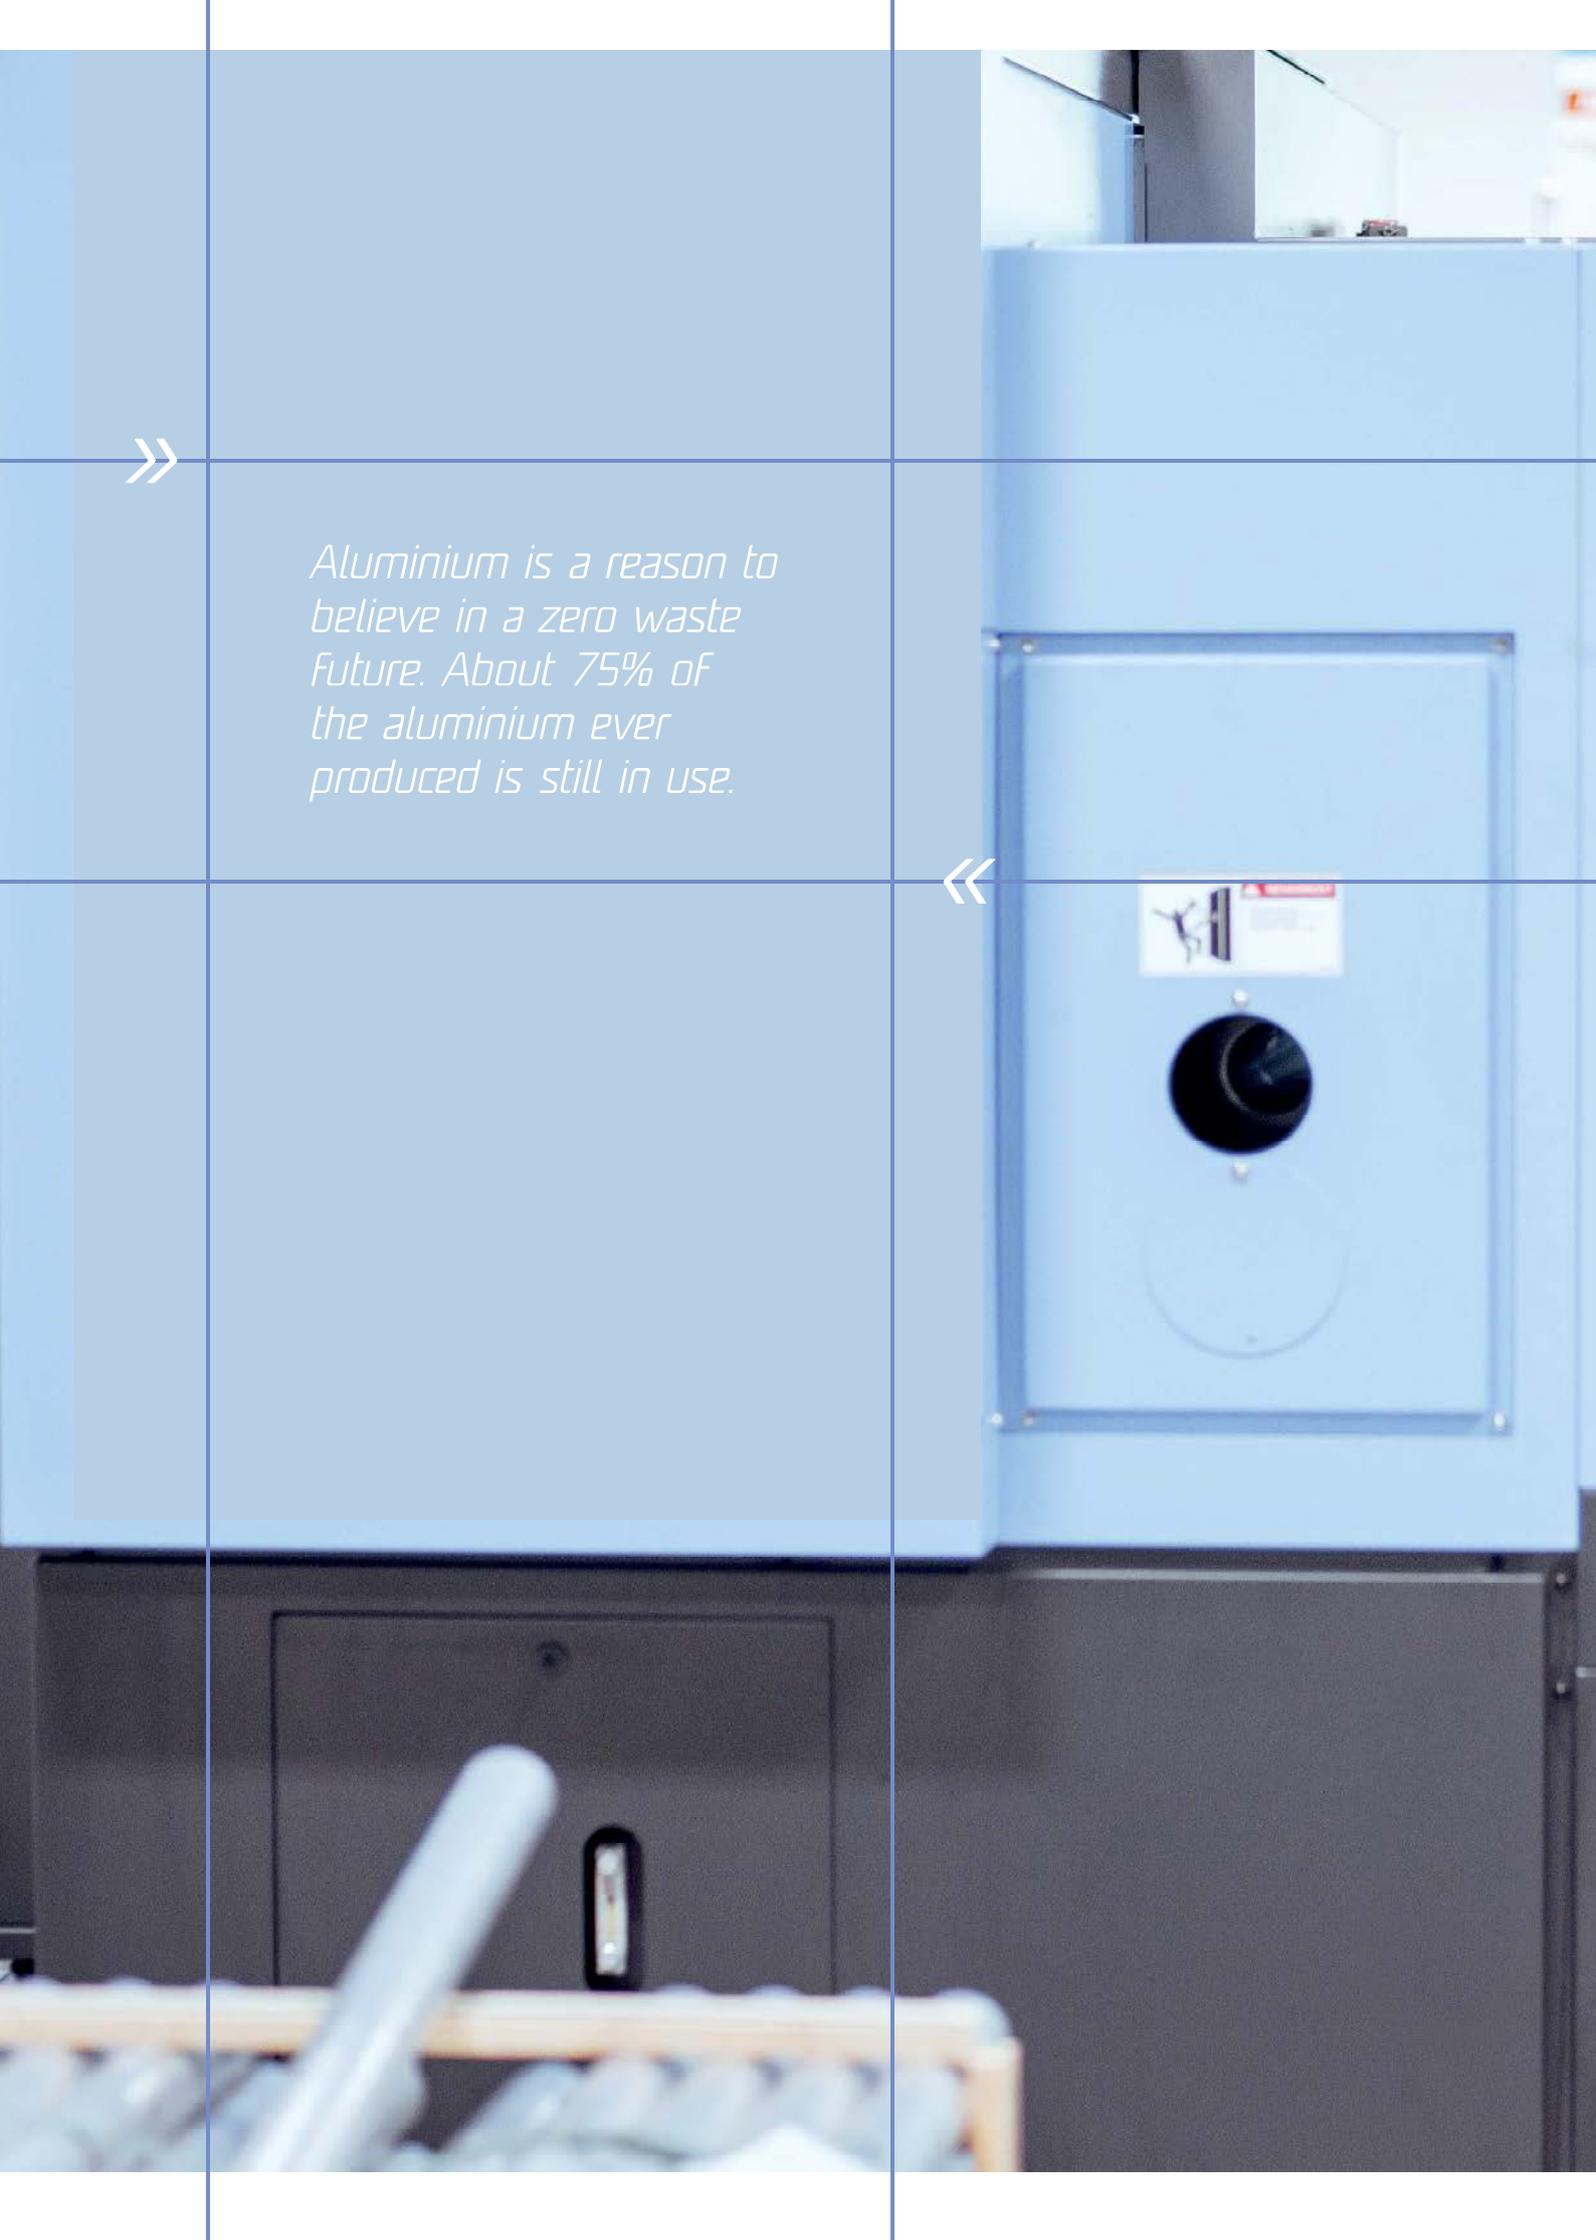

Where tradition meets innovation

Impol FinAl is an established player specialising in the aluminium manufacturing industry. It is a part of Impol - a reliable operating partner with more than 190 years of tradition, meeting the various needs of the most demanding customers.

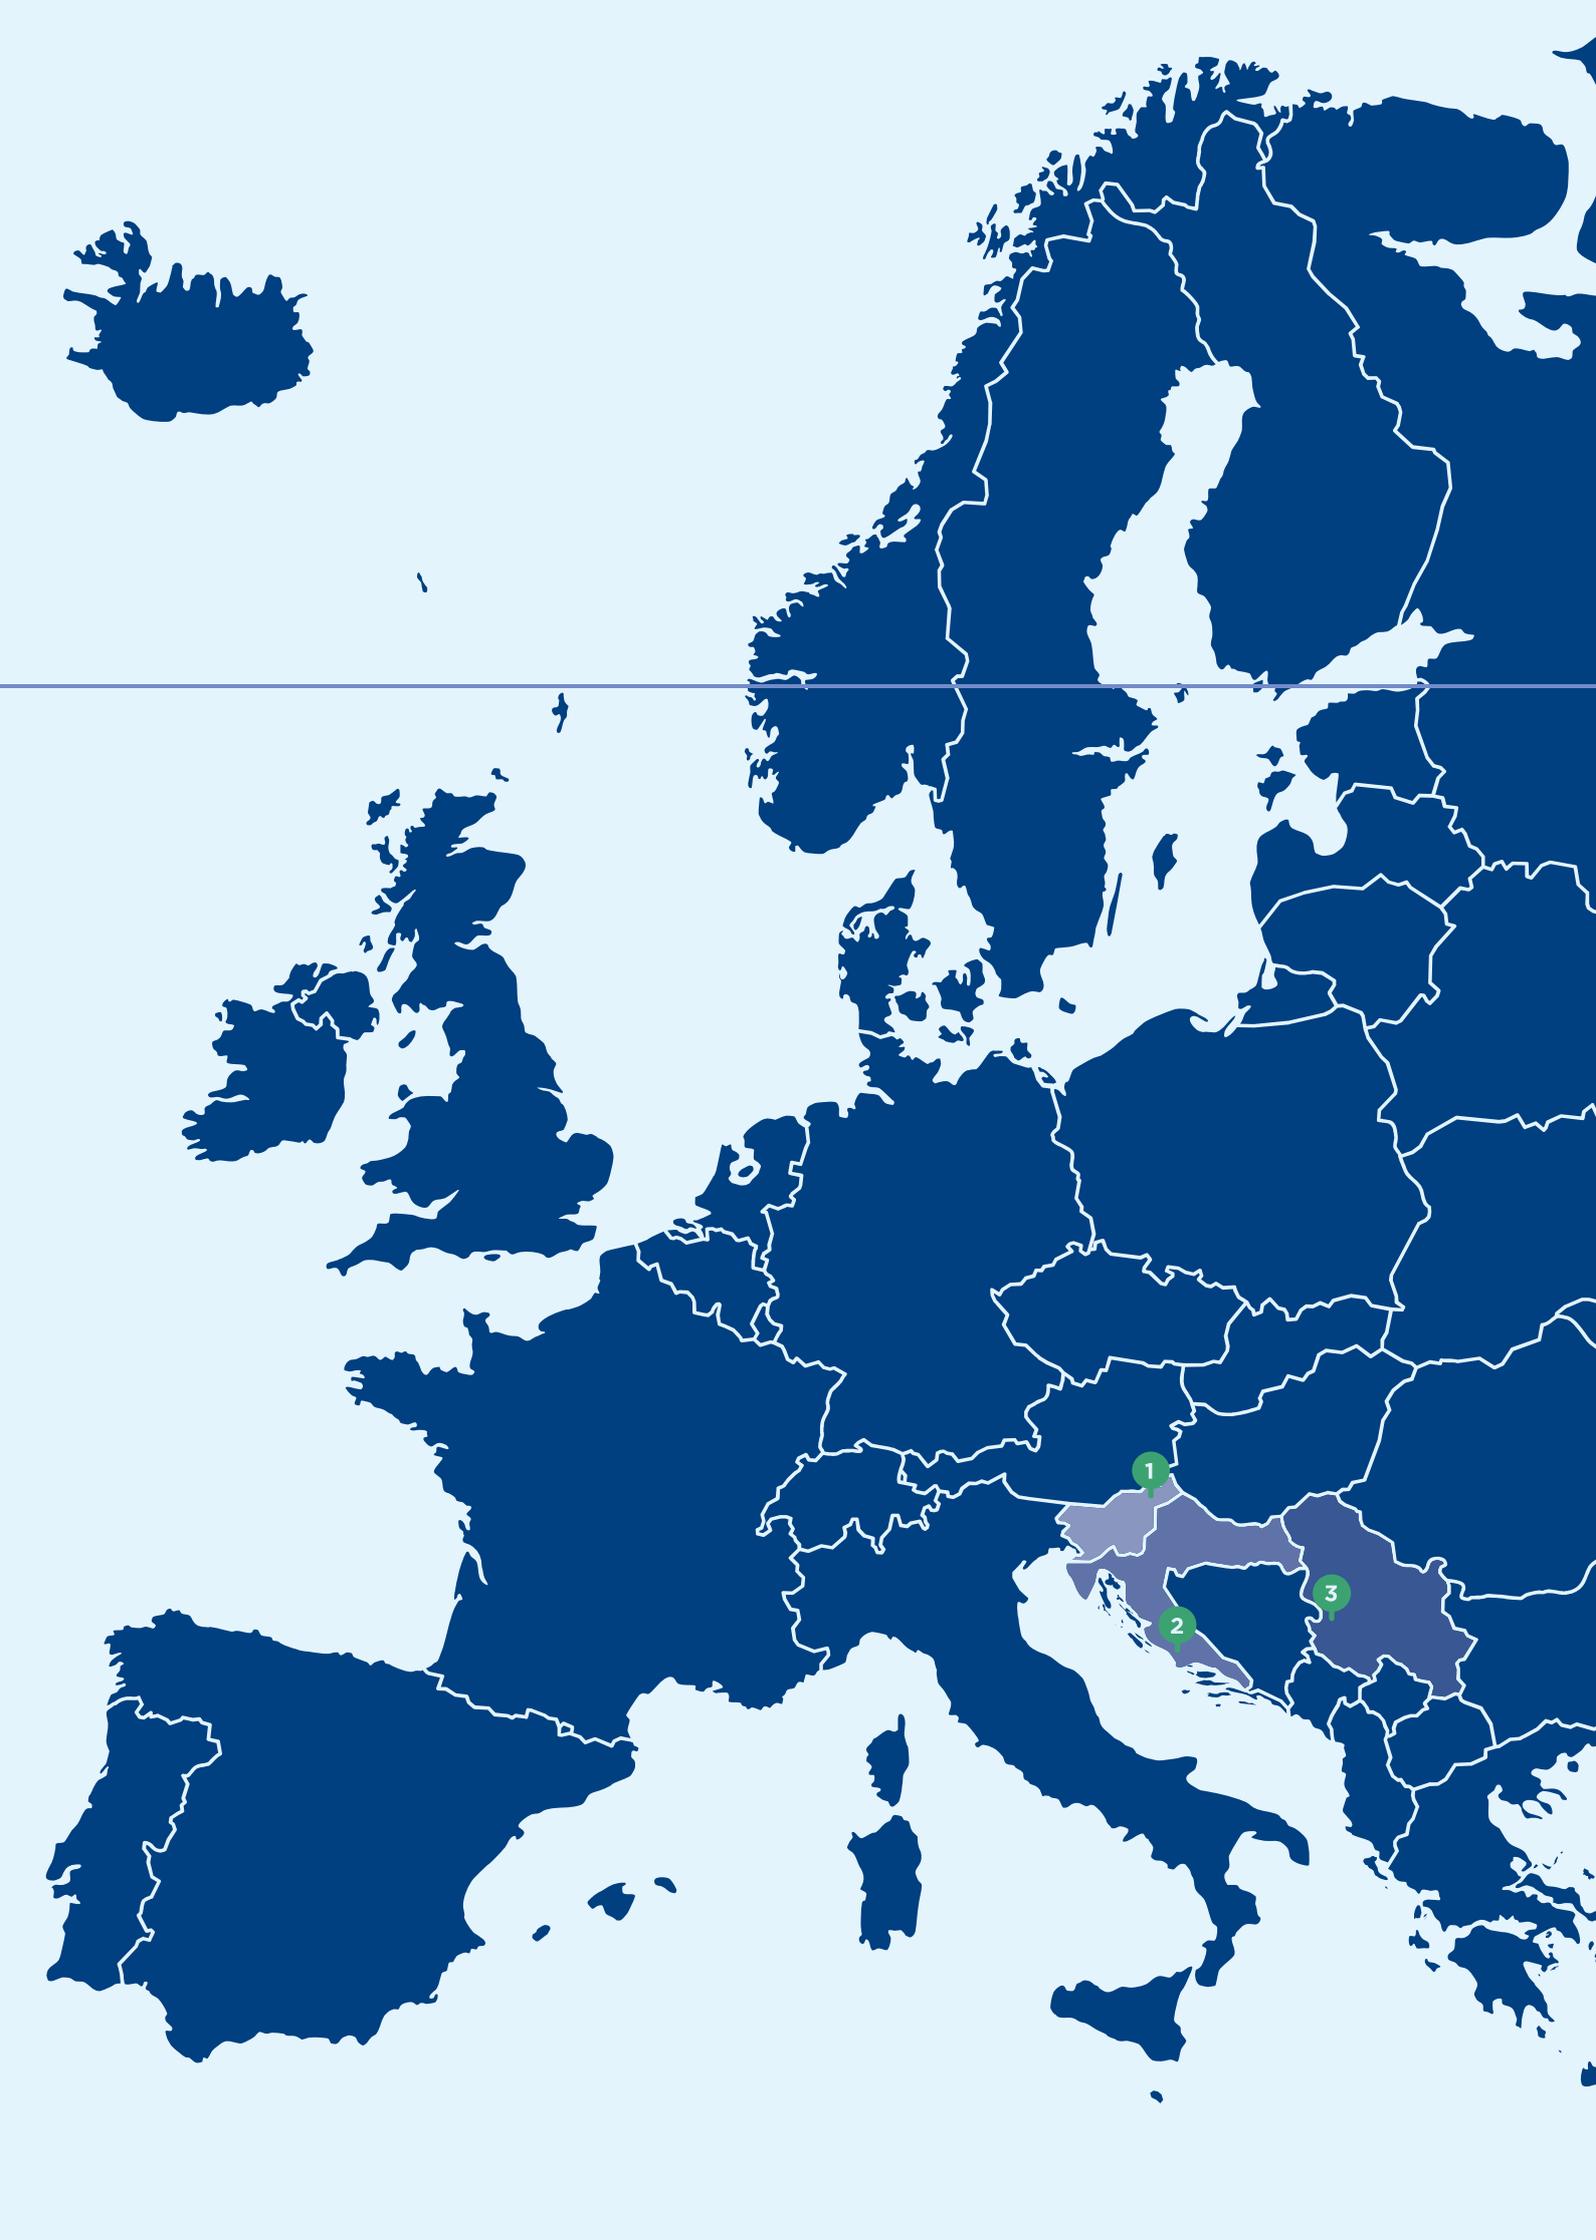

Aluminium is a reason to believe in a zero waste future. About 75% of the aluminium ever produced is still in use.

Tubes

TUBES

Years of
experience

The tubes that we produce are precisely engineered and developed through years of experience.

TUBES

Innovation

Innovation is the key to producing high-quality tubes that are suitable for each and every need.

TUBES

Endless
precision

Every piece that our factory produces is signed with endless precision and dedication.

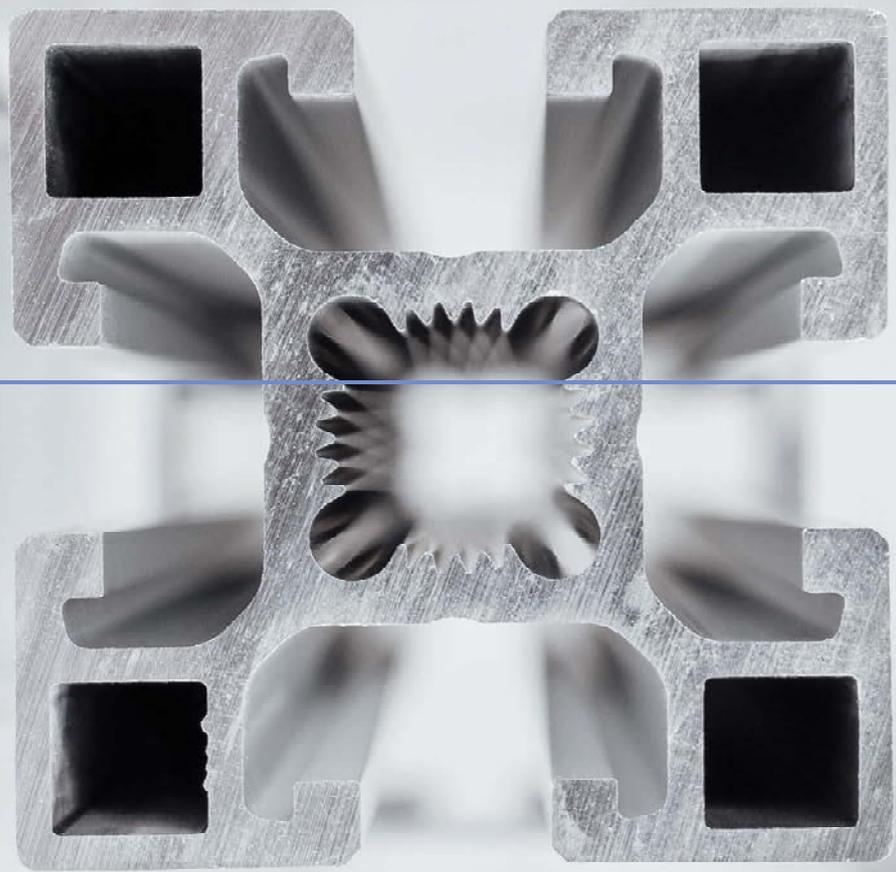

TUBES

Fit perfectly

Our products are engineered to fit perfectly into your Final product.

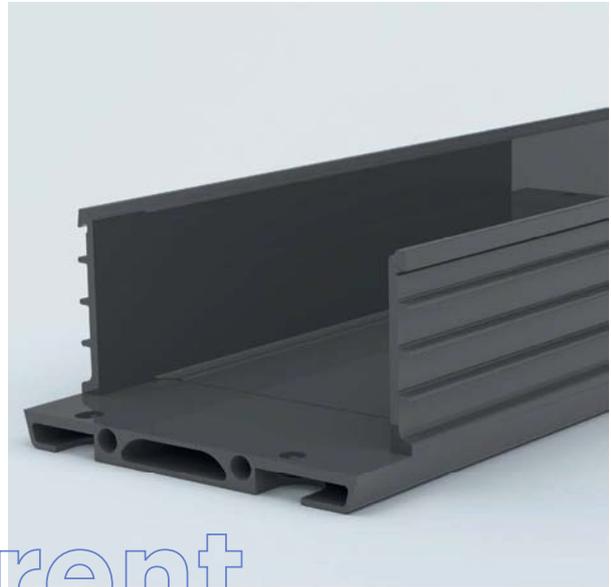

Profiles

PROFILES

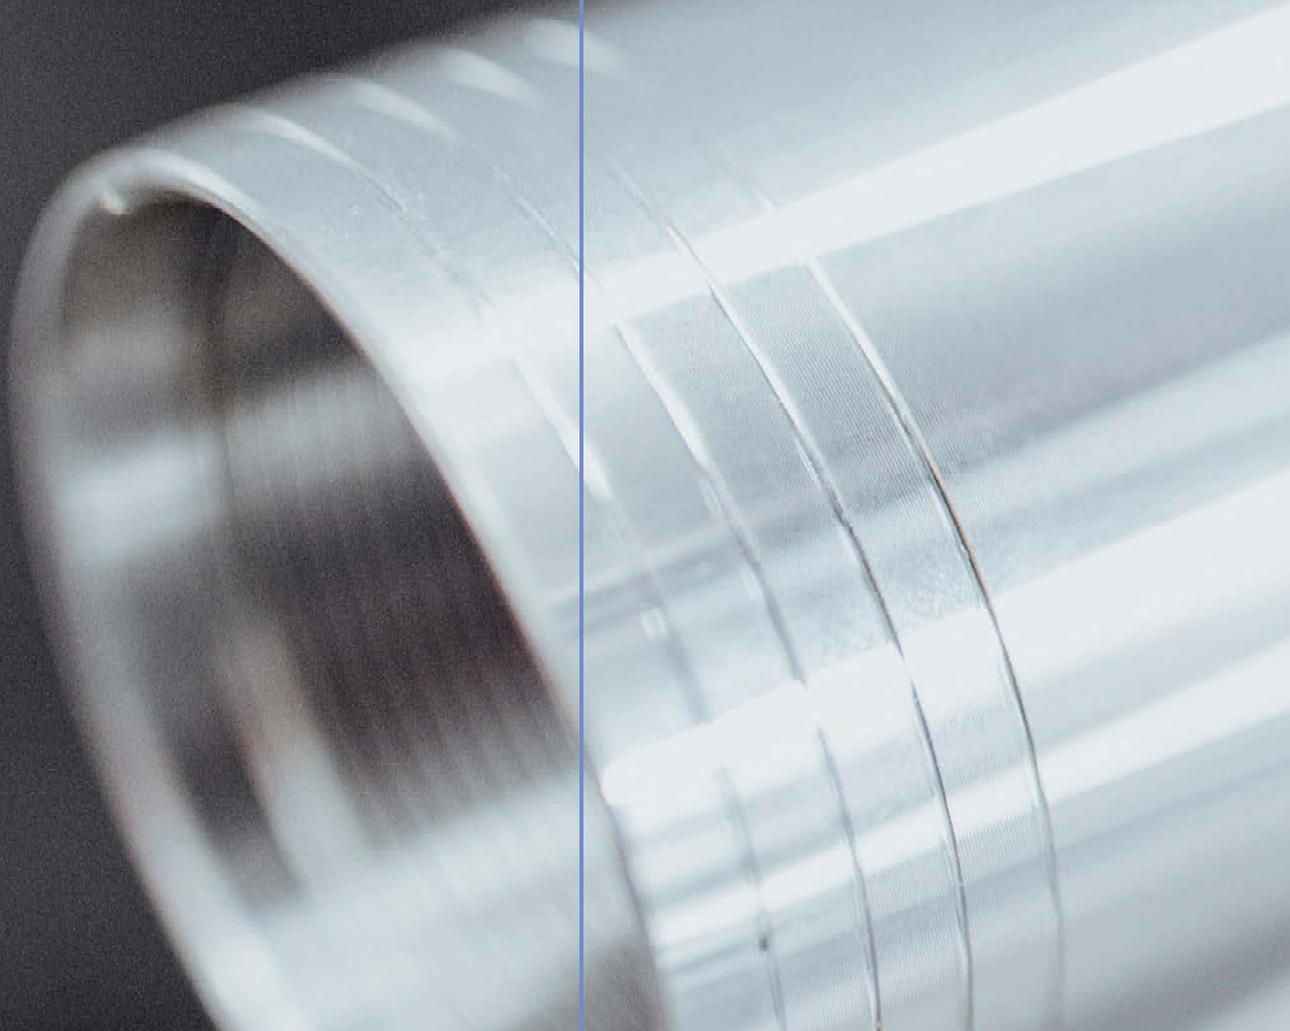

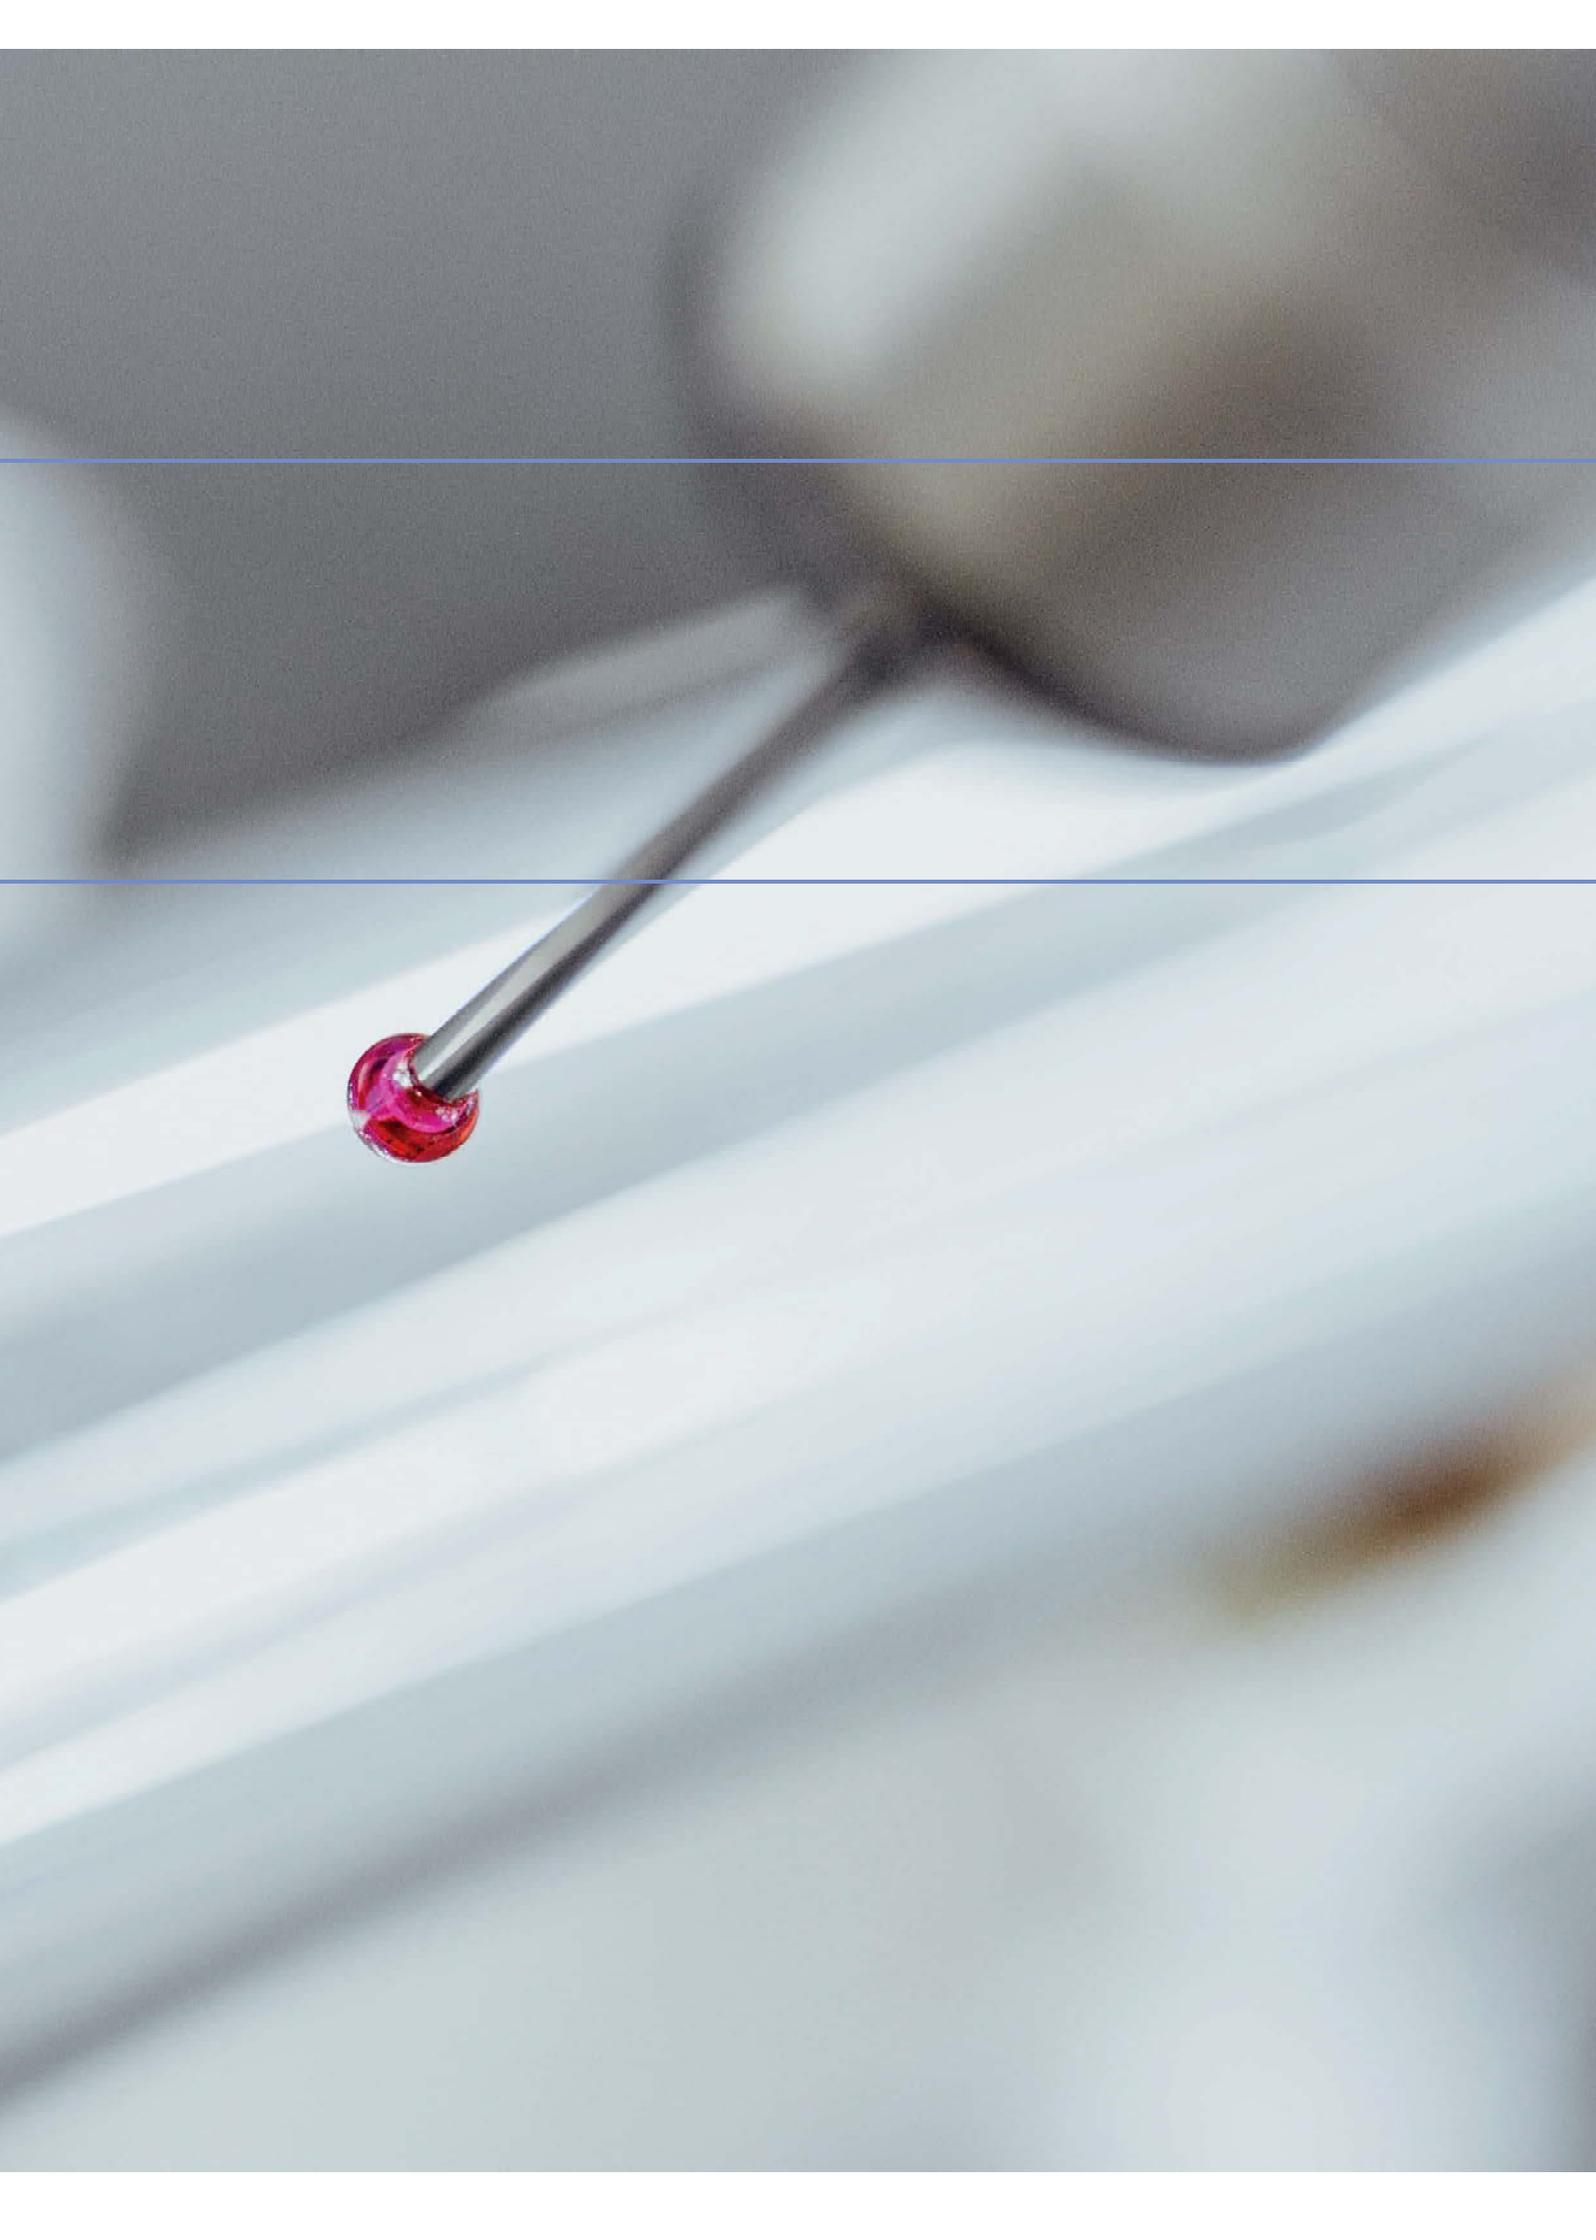

40 different
alloys

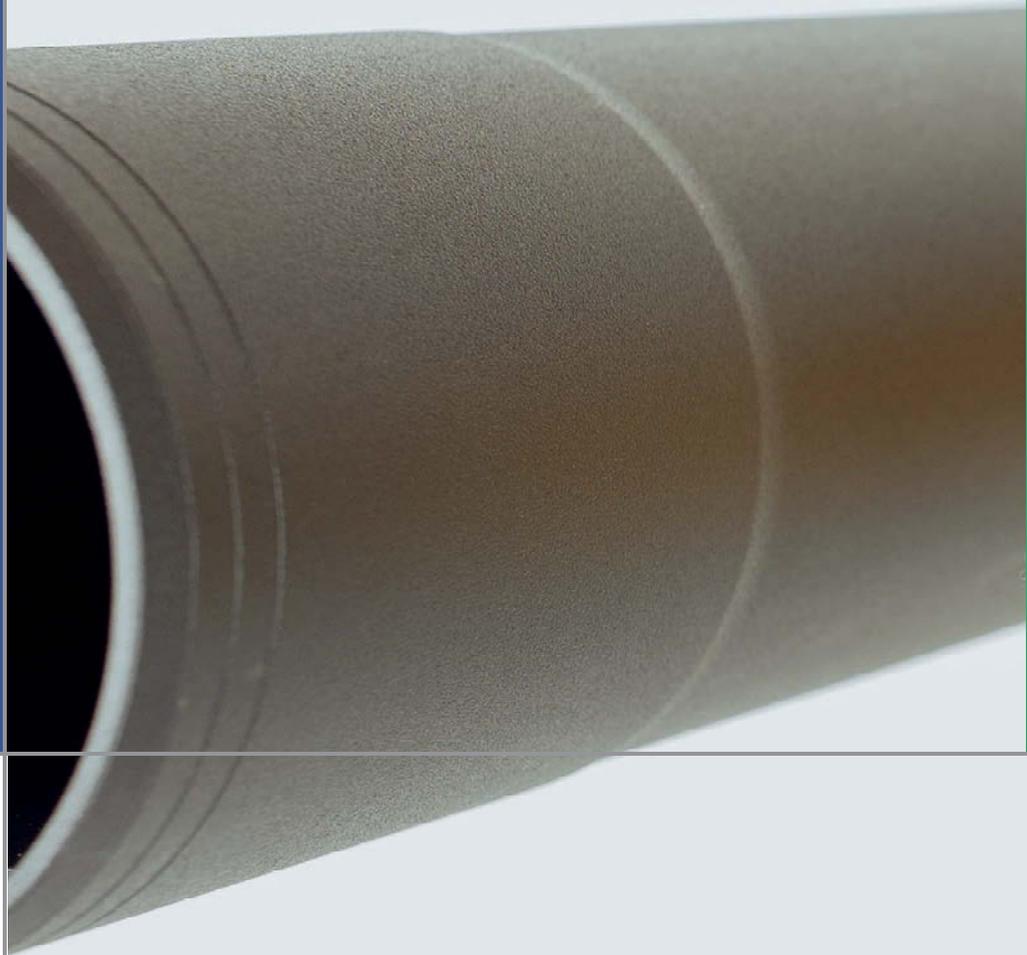

The profiles and sections that we produce are made from 40 different alloys, suiting the specific needs of each and every end user.

*Aluminium is our
inspiration. Light, strong
and exceptionally adaptive
with an endless list
of applications.*
