

The new **InfiniAL** brand of extruded and rolled products was developed in accordance with the sustainable development strategy of the Impol Group.

For InfiniAL products, we can ensure a **low carbon footprint**, a **high recycled content of aluminium** according to the ISO 14021 standard or a **high content of secondary input raw materials** and **high quality**.

InfiniAL products effectively contribute to global sustainability commitments.

InfiniAL LC

products with low carbon footprint

LC4	LC5	LC6
4.0 kg CO _{2e} /kg	5.0 kg CO _{2e} /kg	6.0 kg CO _{2e} /kg

Carbon footprint is calculated according to the 'cradle to gate' methodology (ISO 14040 and ISO 14044).

InfiniAL RC

products with higher recycled content

RC40	RC50	RC60	RC70
40%	50%	60%	70%

Recycled content = post-consumer Al + pre-consumer Al (according to ISO 14021).

InfiniAL SC

products with higher secondary content

SC70	SC80	SC90
70%	80%	90%

Secondary content = post-consumer Al + pre-consumer Al + internal circular Al.
